**SUBJECT: SOLARCYCLE REC3, LLC
Draft Site Limitations
Application for Solid Waste Handling Permit Request for Site Suitability
GEOS Submittal ID No. 971222**

Dear Mr. Towery:

The Recovered Materials and Abatement Program of the Environmental Protection Division (EPD) has completed its review of the ***SITE ACCEPTABILITY REPORT FOR THE SOLAR PANEL SOLID WASTE HANDLING PROCESS at the SOLARCYCLE MATERIALS RECOVERY FACILITY, prepared by Harbin Engineering, P.C., December 10, 2025, revised January 27, 2026.*** Based on the data submitted, EPD has drafted “Site Limitations” which would form the basis for design of the proposed solid waste handling facility in a manner that complies with *Georgia’s Rules for Solid Waste Management*, Chapter 391-3-4-.05(1). A copy of the draft site limitations is attached.

Comments on the proposed facility’s site suitability report and the draft “Site Limitations” are welcome. However, if EPD is to consider such comments prior to determining if a Suitability Notice is warranted for this facility, comments must be received no later than 30 days from the issuance of this letter.

Please note that issuance of a Site Suitability Notice by EPD does not constitute a permitting decision for the proposed facility and comments regarding siting issues may be considered up to the time a final permitting decision is made.

Please feel free to contact Sarah Knapp at 470-524-0632 if you have any questions.

Sincerely,

Sarah B. Visser, Chief
Land Protection Branch

Draft Site Limitations

**Solarcycle REC3, LLC
Polk County
Proposed Materials Recovery Facility**

1. The area considered for acceptability includes only the 24.4-acre parcel shown on ***Figure 1. Location Map, SITE ACCEPTABILITY REPORT FOR THE SOLAR PANEL SOLID WASTE HANDLING PROCESS at the SOLARCYCLE MATERIALS RECOVERY FACILITY.***
2. Solid waste handling operations shall not be conducted in any wetlands, as defined by the U.S. Army Corps of Engineers, unless evidence is provided to the Director, by the applicant, that use of such wetlands has been permitted or otherwise authorized under all other applicable state and federal law and rules. A statement certifying that wetlands will not be impacted because of construction activities at the site shall be submitted. This statement shall be signed and stamped by the professional engineer responsible for the Design and Operational Plan for the subject site. Wetland areas, if applicable, shall be delineated on the Design and Operational Plan.
3. Solid waste handling operations at the Solarcycle REC3 Materials Recovery Facility (MRF) shall not restrict the flow of the 100-year flood, reduce the temporary water storage capacity of the floodplain, or result in a washout of solid waste or material to pose a hazard to human health and the environment. Solid waste handling activities shall not be performed in areas of the property considered to be within the 100-year floodplain.
4. Solid waste handling operations at the Solarcycle REC3 MRF shall conform to the Erosion and Sedimentation Control Act and be protective of the State of Georgia waters.
