**RE: Consent Order No. EPD-AQC-6980**  
Sterigenics U.S. LLC  
2971 Olympic Industrial Drive SE  
Atlanta, GA 30339

Dear Ms. Hoffman and Mr. Mosby:

On August 7, 2019, Consent Order No. EPD-AQC-6980 was executed with Sterigenics U.S. LLC (“Sterigenics”) related to the Georgia Air Quality Act, the Georgia Rules for Air Quality Control, and Air Quality Permit No. 7389-067-0093-S-05-0. The Order required the Company to commence construction on planned modifications to the above-referenced facility, ensure that all equipment listed in permit application 27153 was installed and operational within 24 weeks of commencing construction, and to provide and implement a Work Practice Plan.

Based on the information received by the Division, the Consent Order has been terminated by the full and complete performance of each condition. Please note that, in accordance with our letter of April 1, 2020 and to significantly reduce ethylene oxide emissions at the facility, the Division expects that Sterigenics will, at all times, operate the new pollution control equipment, indoor air capture system, and modified control device configuration on the sterilization chambers and that Sterigenics will route all emissions through the taller stacks at the facility. Further, the Division expects Sterigenics to implement the Division-approved testing protocol at the facility. If you have any questions concerning this issue, please feel free to contact me at 404-363-7047 or sean.taylor@dnr.ga.gov. Thank you for your cooperation in this matter.

Sincerely,

Sean Taylor  
Program Manager  
Stationary Source Compliance Program
