

**Georgia Environmental Protection Division  
Land Protection Branch  
Solid Waste**

**Surface Water and Underdrain Guidance Issued**

The Georgia Environmental Protection Division (EPD) Land Protection Branch (LPB) has developed the following guidance document:

**Monitoring of Surface Water and Underdrain Systems  
at Solid Waste Facilities  
Guidance Document**

This document is available on the Solid Waste Technical Guidance page of EPD's website:

<https://epd.georgia.gov/about-us/land-protection-branch/land-protection-branch-technical-guidance/solid-waste-technical>

This document clarifies monitoring and reporting requirements for surface water and underdrain systems when required at landfills by the Georgia Rules for Solid Waste Management (391-3-4). The Rules are administered by the Solid Waste Management Program.

As part of the guidance development process, LPB solicited input from the public and impacted organizations. The stakeholder input was taken into consideration during preparation of this document.

For questions, please contact the Solid Waste Technical Duty Officer at (404) 362-2692.
