Re: Implementation of 40 CFR Part 60, Subpart Mmmm Emission Guidelines and Compliance Times for Existing Sewage Sludge Incineration Units

Dear Ms. Walker:

With this letter, the Georgia Environmental Protection Division (EPD) is submitting for approval and incorporation proposed amendments to Georgia's State Plan for the Implementation of the Emission Guidelines and Compliance Times for Existing Sewage Sludge Incineration Units. These amendments satisfy the 40 CFR Part 60, Subparts B and Mmmm elements that are required to meet section 129 of the Clean Air Act (CAA). Specifically, the attached package is being submitted to fulfill the requirements of 40 CFR 60.5005 and 60.5015 of Subpart Mmmm for a plan to implement and enforce the emission guidelines for sewage sludge incineration (SSI) units.

The public notice for these revisions to Georgia's State Plan was published via GovDelivery.com on October 28, 2019. The proposed revisions were the subject of a public hearing on December 2, 2019. No oral comments were received during the public hearing. Written comments were received from the EPA on December 9, 2019. A summary of the comments received and EPD's responses are enclosed, along with certification that the required public notice was provided and that a public hearing was held.

We have enclosed the final version of Georgia's State Plan for Implementation of the Emission Guidelines and Compliance Times for Existing Sewage Sludge Incineration Units to satisfy the 40 CFR Part 60, Subparts B and Mmmm elements that are required to meet section 129 of the CAA. This submittal includes one hard copy and one electronic copy of the State Plan revision in its entirety. The electronic copy is an exact duplicate of the hard copy.

Ms. Mary Walker
