Re: Approval of  
September 2014 Semi-Annual  
Progress Report Revised 3/12/15  
Woodall Creek Site,  
Atlanta, Fulton County, GA  
HSI #10689

261-0570

Dear Mr. McClatchey:

The Georgia Environmental Protection Division (EPD) has reviewed the letter from your geologist Jerry Gaccetta dated March 12, 2015, which responded to our January 14, 2015 notice of deficiencies referencing the September 2014 Semi-Annual Progress Report dated December 2014. EPD has also reviewed the revised September 2014 Semi-Annual Progress Report dated March 12, 2015. These documents were submitted pursuant to the Revised Corrective Action Plan dated December 17, 2013 (CAP), as approved by EPD January 10, 2014. The CAP was submitted pursuant to Condition 2 of Administrative Order EPD-HSR-445.

Pursuant to Condition 7 of the Administrative Order, EPD is approving this report with the following condition:

- 1) Monitoring well SMFDS-1 will continue to be monitored on a semi-annual basis, as originally proposed in the approved CAP. All other recommendations made in Table 1 are satisfactory to EPD.

As proposed in the approved CAP, the third semi-annual monitoring report should be submitted to EPD no later than May 27, 2015.

If you have any questions or need assistance, please contact Larry Kloet at 404-657-8600.

Sincerely,

David Reuland, Unit Coordinator  
Response and Remediation Program

c: Jerry Gacetta (AMEC)  
Scott Laseter, Attorney
