

**1.1**

**Applicability**

- (a) The provisions contained herein apply to the owner or operator of any stationary source which contains any facility affected by regulations or emissions limitations and standards promulgated under the Georgia Department of Natural Resources Rules and Regulations for Air Quality Control Chapter 391-3-1 and the United States Code of Federal Regulations Title 40.
- (b) These provisions do not replace or supersede any other more restrictive applicable regulations or emissions limitations and standards including their accompanying testing or monitoring methods and procedures.
