

SECTION D. PROCESS INFORMATION

Although this facility previously disposed of K001 hazardous waste into the landfill (closed in 1989), it is not currently an *active* Treatment Storage or Disposal facility. The facility is a large quantity generator of K001 hazardous waste, but all generated waste is shipped offsite to a Subtitle C hazardous waste landfill. No hazardous waste is currently disposed on site; therefore, Section D is not required in the Part B Application.
