I-16/I-75 Interchange Widening and Reconstruction Project Phase 2
Activity

This advisory is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental law. The public is invited to comment during the 30-day period on the proposed activity. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 MLK Jr. Dr. S.W., Suite 1462, Atlanta, Georgia 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act
O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control
Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(a-k)}: a

Description and Location of Proposed Activity:

Application proposes to impact 65 linear feet (1,100 square feet) of stream buffer to one intermittent stream (an unnamed tributary to Vineville Branch, a tributary to the Ocmulgee River) for the reconstruction of the northbound ramps of I-75 to the I-16 interchange. Disturbance activities will consist of the installation of type C silt fence and cut and fill for slopes to maintain flow from a new drainage structure. Project on I-75 begins at Hardeman Avenue and ends at the southern limit of the I-16 interchange in Bibb County.

Name and Address of Permit Applicant:

Mr. Eric Duff
Georgia Department of Transportation
Office of Environmental Services
600 W. Peachtree Street, NW, 16th Floor
Atlanta, Georgia 30308

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
