Notice Close Date

BV-060-18-09
Control Number

Parkwood Development, LLC
Boulevard Heights – Single-Family Residential Development
(Lonetia Street SE – Pershing Avenue SE, Atlanta, GA 30312)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch, 200 Piedmont Avenue SW, Suite 418 West, Atlanta, GA 30334. Please contact Ms. Thais Edwards at (404) 463-2382 or email thais.edwards@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1462 East, Atlanta, GA 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.05 (2)(a-k)}: (a) and (h)

Description and Location of Proposed Activity:

The proposed project will consist of constructing a new single-family residential development and the associated infrastructure on approximately 3.97 acres along Lonetia Street and Pershing Avenue in Atlanta. The deteriorated brick headwall and corrugated metal pipes (24" Ø - 36" Ø) located near Francis Avenue will be removed and a new USBR Type VI Stilling Basin will be constructed and the streambanks near this outfall will then be graded to a more stable slope (2H:1V) and the native riparian vegetation along this intermittent stream will be restored. In addition, 300 linear feet of the stream located within the right-of-way of Lonetia Street will be piped (42" Ø RCP with precast concrete headwalls). This project will result in ±593 linear feet total (±26,586 square feet total) of buffer impacts along an unnamed intermittent stream, a tributary to Intrenchment Creek in the Upper Ocmulgee Watershed.

Name and Address of Permit Applicant: Mike Wall
Parkwood Development, LLC
750 Ponce de Leon Place NE, Suite 8
Atlanta, GA 30308

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
