PUBLIC ADVISORY
WATERSHED PROTECTION BRANCH

October 7, 2015
Advisory Issue Date

Peachtree Corners/
City/County

November 6, 2015
Advisory Close Date

BV-067-15-09
Control Number

Peachtree Parkway Sanitary Sewer Improvements
Activity

This advisory is issued to inform the public of a receipt of an Application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive, S.W., Suite 1456, Atlanta, Georgia 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(A-K)}: D

Description and Location of Proposed Activity:

The proposed project involves buffer encroachments necessary to replace an existing 8-inch gravity flow sewer line with a new 10-inch gravity sewer line. The replacement sewer line will be constructed within the existing utility right-of-way. The project is located near Peachtree Corners Circle in the City of Peachtree Corners and will result in 70 linear feet of buffer disturbance along an unnamed tributary to the Chattahoochee River.

Name and Address of Permit Applicant:

Mr. Don Joffe
Gwinnett County Department of Water Resources
684 Winder Highway
Lawrenceville, Georgia 30045

Summary of Rules Requirements for Variance Application:

The application for a variance must include an Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
