March 8, 2019  
Advisory Close Date

BV-106-18-01  
Control Number

Kings Pond Storm Damage Repair  
*(Fort Benning, Georgia)*  
Activity

This notice is issued to inform the public of a receipt of an Application for a variance submitted pursuant to a state environmental law. The public is invited to comment during the 30-day period on the proposed activity. Site Plans are available for review and are located in the following EPD office: Watershed Protection Branch 200 Piedmont Avenue, S.W. Suite 418 West Atlanta, Georgia 30334. Please contact Ms. Clara Davis at (404) 463-2382 or e-mail [clara.davis@dnr.ga.gov](mailto:clara.davis@dnr.ga.gov) to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 MLK Jr., Dr., SW Suite 1462 East, Atlanta, Georgia 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7.05 (2)(a-k)}: a

Description and Location of Proposed Activity:

The proposed project is for storm damage repair along Kings Pond dam in Fort Benning. Buffer disturbance activities consist of stump removal to maintain the structural stability of the dam and revegetation. The project will result in buffer impacts to 990 linear feet (2,300 square feet) along Kings Pond in the Middle Chattahoochee Watershed.

Name and Address of Permit Applicant:

Mr. Craig Taylor  
U.S. Army Directorate of Public Works  
6650 Meloy Drive  
Building 6  
Fort Benning, Georgia 31905

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
