Notice Issue Date

Putnam County
City / County

November 8, 2018
Notice Close Date

BV-117-18-02
Control Number

Streambank Stabilization – Great Waters Course – Reynolds Lake Oconee
(Hole 4 – Broadlands Drive, Eatonton, GA 31024)

Activity

This notice is issued to inform the public of a receipt of an application for a variance submitted pursuant to a state environmental Law. The public is invited to comment during the 30-day period on the proposed activity. Site plans are available for review and are located in the following EPD office: Watershed Protection Branch, 200 Piedmont Avenue SW, Suite 418 West, Atlanta, GA 30334. Please contact Ms. Thais Edwards at (404) 463-2382 or email thais.edwards@dnr.ga.gov to schedule an appointment to review the plans. Since the EPD has no authority to zone property or determine land use, only those comments addressing environmental issues related to air, water, and land protection will be considered in the application review process. Written comments should be submitted to: Program Manager, NonPoint Source Program, Erosion and Sedimentation Control, 2 Martin Luther King Jr. Drive SW, Suite 1462 East, Atlanta, GA 30334.

Type of Permit Application: Variance to encroach within the 25-foot State waters buffer.

Applicable Law: Georgia Erosion and Sedimentation Act O.C.G.A. 12-7-1 et seq.

Applicable Rules: Erosion and Sedimentation Control Chapter 391-3-7

Basis under which variance shall be considered {391-3-7-.05 (2)(a-k)}: (a)

Description and Location of Proposed Activity:

The proposed streambank stabilization project will consist of grading the eroding streambanks along an unnamed intermittent stream to a more stable slope, installing coconut fiber rolls (i.e., coir rolls staked at the toe of the slope) and replacing the existing sod with drought tolerant *TifTuf Bermuda Grass*. The proposed streambank stabilization practices will prevent further erosion of the streambanks along Hole 4 of the Great Waters Course at Reynolds Lake Oconee in Putnam County. This project will result in approximately 243 linear feet total (12,150 square feet total) of buffer impacts along an unnamed intermittent stream, a tributary to Lake Oconee in the *Upper Oconee Watershed*.

Name and Address of Permit Applicant: Rabun Neal
President, Reynolds Lake Oconee
112 Great Waters Drive
Eatonton, GA 31024

Summary of Rules Requirements for Variance Application:

The application for a variance must include an approved Erosion and Sediment Control Plan with control measures based on sound conservation and engineering practices which meet or exceed the standards in the "Manual for Erosion and Sediment Control in Georgia" and which will minimize erosion and deposition of sediments on adjacent lands or into State waters.
