Description and Location of Proposed Activity:

The applicant proposes to impact 160 linear feet (4,500 ft²) of buffer along Lake Burton to construct a 160'-long, 7'-high, 1'-wide poured in place concrete seawall to control ongoing erosion on private residential property. This property is within a narrow no-wake zone of Lake Burton between the marina and the open water of the lake. Recreational boaters frequent this area of the lake and continued wave action has created erosion and removed the vegetation at the shoreline. Property is located at 2109 W. Wildcat Road.
