MINERAL PRODUCTION IN GEORGIA

The total estimated value of mineral products mined in Georgia in 2001 was \$1.61 billion, which represents a 9 % increase over the 1990 figure of \$1.477 billion. Nationally, Georgia ranks 1st in clay production and 7th in value of all non-fuel mineral commodities produced. This accounts for about 4.5% of the U.S. non-fuel production. The mining industry contributes substantially to the overall economy of the State. Nearly all of the minerals currently produced in Georgia are nonmetallic (or industrial) and production of high grade kaolin and crushed stone account for about 54% and 29% of the State's mineral income, respectively. These are followed by production of dimension granite, marble, sand and gravel and 10 other products. The distribution of these commodities in Georgia is illustrated on the Mineral Resource Map of Georgia in a pocket inside the back cover.

MINERAL PRODUCTION IN GEORGIA FOR 2001¹

Mineral/Material	Quantity (thousand metric tons)	Value (thousand dollars)
Clays: Common	1,500	5,200
Fuller's Earth	655	72,300
Kaolin	7,600	877,000
Gemstones	XX	8
Sand and gravel:		
Construction	7,000	29,400
Industrial	645	12,500
Stone: Crushed ²	76,000	463,000
Dimension	74	11,100
Combined value of barite, cement, feldspar, iron oxide pigments, lime, mica, stone (crushed marble)	XX	137,000
Total	XX	1,607,508

Footnotes:

XX = Not applicable. Production information is withheld for some items to avoid disclosing company proprietary data.

¹ Production data are preliminary and measured by mine shipments, sales, or marketable production (including consumption by producers) as obtained from the 2001 Minerals Industry Surveys - Georgia, U.S. Geological Survey.

² Excludes certain stones; kind and value included with "Combined values" data.

MINING LAWS AND CONTROLS

State Agencies

The Georgia Department of Natural Resources (DNR), Environmental Protection Division (EPD) includes branches with regulatory responsibilities or information sources of particular relevance to mining:

The Land Protection Branch administers the Surface Mining Act. This Act sets standards for permit application, bonding levels, and site reclamation for the surface mining of all commodities except coal and dimension stone. To review files of active mine sites or to request additional information, contact:

Georgia DNR/EPD/Land Protection
Suite 104 - Municipal Solid Waste / Surface Mining Unit
4244 International Parkway
Atlanta, GA 30354-3902

(404) 362-2696

Through the Water Well Standards Act and the Oil and Gas and Deep Drilling Act, the Georgia Geologic Survey (GGS) regulates a broad range of drilling activities, including: domestic water wells, irrigation wells, industrial wells, geologic and engineering test borings, monitoring wells, dewatering wells, seismic shot holes and oil and gas exploration wells. Published GGS geologic and hydrogeologic texts, US Geological Survey (USGS) topographic maps, and blackline prints of US Fish and Wildlife Service National Wetland Inventory maps may be purchased from the GGS Map and Publication Sales Office. The GGS Technical Files include unpublished geologic reports and out-of-print items. The GGS also maintains a repository of well cuttings and cores. Request data searches and coordinate on-site reviews with the GGS Information Geologist.

Georgia Geologic Survey
Suite 400
19 Martin Luther King, Jr. Drive, SW
Atlanta, GA 30334-9004

(404) 656-3214

To help locate other environmental contacts within EPD, contact the Customer Assistance Program:
within metro Atlanta (404) 657-5947
outside metro Atlanta (888) 373-5947

The Georgia Department of Transportation performs tests on geologic materials for use as aggregate in state construction projects. For a list of qualified aggregate sources contact:

Georgia Department of Transportation
Office of Materials and Research
15 Kennedy Drive
Forest Park, GA 30050-2599

(404) 363-7574

State Agencies, cont.

The Office of the Commissioner of Insurance licenses blasting contractors and permits blasting operations. Request forms and regulations from:

Office of the Commissioner of Insurance
Safety and Fire Division - Hazardous Materials
Floyd Towers West, Suite 620
2 M. L. King Jr. Drive, SE
Atlanta, GA 30334

(404) 656-9798

Federal Agencies

The US Department of the Interior includes the following agencies that deal with mining and related issues:

Coal mining permits and reclamation of coal mines closed prior to 1977 are handled by:

US Department of the Interior,
Office of Surface Mining, Reclamation, and Enforcement
Knoxville Field Office
530 Gay Street, Suite 500
Knoxville, TN 37902

(865) 545-4103

Although the US Bureau of Mines no longer exists, some of their mineral information functions are now performed by the US Geological Survey (USGS). The GGS distributes the Georgia section of the USGS annual, Mineral Industry Surveys, free upon request. Mining commodity data pertaining to other states, domestic, or international markets are available from:

Internet at <http://www.minerals.usgs.gov/minerals/>

Mines Fax-Back, (703) 648-4999, requires a fax machine with a touch-tone handset.

U.S. Government Printing Office
Superintendent of Documents
USGS Minerals and Materials Information CD-ROM(stock# 024-004-02435-6)

(202) 512-1800

Federal Agencies, cont.

The Bureau of Land Management implements the federal onshore mineral leasing program including resource assessment and environmental review. For information about federally controlled mineral rights in Georgia, contact:

US Department of the Interior
Bureau of Land Management
Eastern States Office, Minerals Adjudication
7450 Boston Boulevard
Springfield, VA 22153

(703) 440-1700

For an alternate source of information on policy toward mining and current mineral rights status on government land, contact the specific agency that administers the property. For example, inquiries concerning prospecting or mining on US Forest Service land in Georgia would contact:

US Department of Agriculture
Forest Service, Lands and Minerals Unit
Room 716-N
1720 Peachtree Street, NW
Atlanta, GA 30367

(404) 347-4592

The US Department of Labor maintains a database of mines inspected by the Mine Safety and Health Administration (MSHA.) For additional information contact:

US Department of Labor
Mine Safety and Health Administration
1100 Wilson Blvd., 21st Floor
Arlington, VA 22209-3939

(202) 693-9400

Fax-on-demand, (202) 693-9401, requires a fax machine with a touch-tone handset.

MINERAL INDUSTRY INFORMATION

The following organizations support the mining industry in Georgia. Changes in company name and mine location can occur within the 5-year period between revisions of this circular. For the most current information regarding a specific company or mineral commodity, please contact one of the following information sources:

China Clay Producers Association
4885 Riverside Dr.
Macon, GA 31210

(478) 757-1211

Georgia Mining Association
4885 Riverside Dr.
Macon, GA 31210

(478) 757-1211

Elberton Granite Association, Inc.
Number One Granite Plaza
P.O. Box 640
Elberton, GA 30635

(706) 283-2551

Southern Brick Institute
1810 Overlake Dr., Suite A
Conyers, GA 30013

(770) 760-0728

Georgia Crushed Stone Association
9810-A Medlock Bridge Rd.
Suite 202
Duluth, GA 30097

(678) 473-0012

TAPPI (Technical Association of
Pulp and Paper Industry)
15 Technology Pkwy., South
Norcross, GA 30092
P.O. Box 105113
Atlanta, GA 30348

(770) 446-1400

Georgia Department of Industry,
Trade, and Tourism
1100 Marquis Two Tower
285 Peachtree Center Ave., NW
Atlanta, GA 30301-1776

(404) 656-3545

MINERALS/MATERIALS MINED IN GEORGIA

INTRODUCTION

All known mining and quarrying operations in the state are included in this directory and are based upon the following sources:

- Elberton Granite Association
(Purchasing Guide and Directory of Member Firms - Fall, 2002)
- Georgia Crushed Stone Association
(Crushed Stone Information Directory 2000-2001)
- Georgia Department of Natural Resources, Environmental Protection Division
(Geologic Survey, Mining Directory of Georgia, 1998; and
Land Protection, database listing of active surface mining facilities, Dec. 2002)
- Georgia Department of Transportation
(Office of Materials Research, Qualified Products List for Coarse and Fine Aggregate
Sources, Nov. and Dec. 2001)
- Georgia Mining Association
(2002 Membership Directory)
- U.S. Geological Survey
(Mineral Industry Surveys - Georgia, 1990-2001)
- U.S. Dept. of Labor, Mine Safety and Health Administration
(Metal/Nonmetal producer mailing list - Sept. 2001)

Company names, addresses, locations and uses are current through December 2002. The Survey welcomes notification of any changes, additions or corrections for future editions of the directory. By their nature, mining and quarrying operations can be dangerous and federal laws have instituted various mine safety regulations. For these reasons and for the sake of common courtesy, interested parties should contact company authorities before attempting to visit mine or quarry sites.

BARITE

Bartow County

Cimbar Performance
Minerals
P.O. Box 250
25 Old River Road
Cartersville, GA 30120

Paga #1 and #2 Mines and mills: 3 miles southeast of Cartersville, south and east of the Etowah River, west of US Hwy. 41 and Emerson (Permit #113-93).

Fillers and extenders in paint, paper, plastics and rubber products.
(Cambrian - Shady Dolomite residuum)

(770) 387-0319 or
(800) 852-6868

New Riverside Ochre Co.,
Inc.
P.O. Box 460
75 Old River Road, SE
Cartersville, GA 30120

Big Tom Mine: West of old US Hwy. 41 in Emerson, northwest of the Etowah River (Permit #285-86).

Barium chemicals manufacture (also see Iron Oxide Pigments).
(Cambrian - Shady Dolomite residuum)

(770) 382-4568

Big Bertha Mine: Off Old River Road just outside city of Cartersville (Permit #1323-00).

Mine Pit: Approximately 1.3 miles east of GA Hwy. 61, 800 ft. north of highway (Permit #1179-98).

BERYL

Cherokee County

Zemex Industrial Minerals
Inc.
1040 Crown Pointe Pkwy.
Atlanta, GA 30338

Cochran Mine: Approximately 1.5 miles northeast of Ball Ground, approximately 0.75 miles northwest of Cherry Grove School, 0.5 mile east of Long Swamp Creek (Permit #787-97).

Specialty refractory ceramics manufacture (also see Mica).
(Paleozoic - mica pegmatite)

(770) 392-8660

**CLAYS
CLAY - BAUXITE**

Macon County

C. E. Minerals
(Subsidiary of IMERYYS)
P.O. Box 37
Andersonville, GA 31711

Pit: Adjacent to south side of GA Hwy. 26, approximately 8 miles northwest of Andersonville (Permit #541-77, formerly operated by Mullite Co. of America).

Refractories.
(Paleocene - Nanafalia Formation)

(229) 924-4461

Pit: Off Englishville Road (Permit #895-86).

Same.

Sumter County

C. E. Minerals
(Subsidiary of IMERYS)
P.O. Box 37
Andersonville, GA 31711

(229) 924-2175

Eight pits in the Andersonville area including the Easterlin Lot 278 and 315, Joiner, Webb, Thigpen #1 and Van Landingham Mines (Permit #s172-99, 175-99, 292-78, 368-75, 374-99, 833-99, 1022-97 and 1338-00, formerly operated by Mullite Co. of America).

Refractories and aluminum-based chemicals (also see Clay-Kaolin).
(Paleocene - Nanafalia Formation)

CLAY – FULLER'S EARTH

Decatur County

Engelhard Corporation
1101 North Madison St.
Quincy, FL 32351

(904) 627-7688

Kemp/Decatur County, Gragg, Crescent Lake and Complex Mines in the vicinity of Attapulcus in southeastern Decatur County (Permit #028-78, 657-79 and 1170-97 plus 1008-97, formerly operated by Floridin Co.).

Petroleum cracking catalysts, pharmaceuticals, liquid fertilizer, paints, absorbent and well drilling mud.
(Miocene-Hawthorne Group – palygorskite clay)

The Milwhite Co., Inc.
7050 Portwest Drive
Houston, TX 77269

(478) 465-3391

Pit: 6 miles southwest of Attapulcus off GA Hwy. 241 (Permit #342-77).

Pit: Off GA Hwy. 262, 6 miles east of Attapulcus (Permit #362-77).

Liquid fertilizer, paints, absorbent and well drilling mud.
(Miocene-Hawthorne Group – palygorskite clay)

Houston County

Cemex, Inc.
2720 Hwy. 341 South
Clinchfield, GA 31013

(478) 988-2312

Clinchfield Quarry: 5.5 miles southeast of Perry on the south side of US Hwy. 341 at Norfolk Southern Railroad Intersection (Permit #067-02, formerly operated by Medusa Cement Co.).

Additive for cement manufacture (also see Stone-Crushed Limestone).
(Eocene - Twiggs Clay Member, Dry Branch Fm.)

Jefferson County

A & M Products
Manufacturing Co.
P.O. Box 527
Wrens, GA 30833
