

CATEGORICAL EXCLUSION DETERMINATION

Water System Improvement
The City of Flovilla/Butts County
WSID# GA0350000 / DWSRF Loan# DW2016037

The Georgia Environmental Protection Division (EPD) has conducted a review of the above subject project's planning document in accordance with the State's Environmental Review Process (SERP) for Drinking Water State Revolving Fund (DWSRF) projects. The EPD has determined that this project is eligible for a categorical exclusion. Accordingly, the EPD is exempting the project from further substantive environmental review requirements under Georgia's SERP.

The proposed project consists include the replacement of water meters throughout the City of Flovilla's existing service area as well as replacement of approximately 15,000 LF of asbestos cement (AC) water line.

This proposed project is eligible for a categorical exclusion because it meets the following specific criteria, outlined in the DWSRF SERP:

Water meters and water mains will be installed to replace existing service area. All water meter and mains will be installed within existing rights-of way for street or utilities. The existing service area will not change as a result of the proposed project and no new customer will be served by this project.

Furthermore:

- The project will not require issuance of a new or modification of an existing ground water or surface water withdrawal permit;
- The project is not known or expected to have a significant adverse effect on the quality of the human environment, either individually, cumulatively over time, or in conjunction with other Federal, State, local or private actions;
- The project is not known or expected to directly or indirectly have a significant adverse effect on: cultural resource areas, such as archaeological and historic sites; habitats of endangered or threatened species; or environmentally important natural resource areas, such as floodplains, wetlands, important farmlands or aquifer recharge areas; and
- The action is cost-effective and is not expected to cause significant public controversy.

This determination shall become effective after thirty (30) days following its distribution by EPD and can be revoked if significant adverse information is made available. The documentation to support this decision is on file with the Georgia Environmental Protection Division and is available for public scrutiny upon request. A copy of the proposed project documentation is also available for review at the Flovilla City Hall

Additionally, the applicant must request a jurisdictional delineation to determine if any waters of the United States or adjacent wetland areas will be impacted by the project. The stream and wetland delineation is required as part of the USACE's Nationwide or Standard Permit application. All USACE comments and project requirements must be satisfactorily addressed prior to construction.

All interested agencies, groups and persons supporting or disagreeing with this decision are invited to submit written comments, within thirty (30) days of the publish date of this notice to:

Georgia Environmental Protection Division
Rais Khan, Environmental Engineer
Drinking Water Permitting & Engineering Unit
2 Martin Luther King, Jr. Drive, SE - Suite 1362 East
Atlanta, Georgia 30334-9000

After evaluating the comments received, EPD will make a final decision regarding approval of the project planning documents. No administrative action will be taken on the project for thirty (30) calendar days after publication of this Notice in a local newspaper that serves the City of Flovilla area.
