RE: Comments Received for
City of Hahira
Water Pollution Control Plant (WPCP)
NPDES Permit No. GA0037974
Lowndes County

Dear Mr. Sumner:

We are in receipt of your comments regarding the permit issuance for the Hahira WPCP. You requested that the flows in Part I.B.3 of the draft permit should be switched to November-April (winter) 0.175 MGD and May-October (summer) 0.31 MGD. After reviewing the approved design development report, we have revised the flow in Part I.B.3 as requested. We have attached a fact sheet addendum which documents changes (if any) in the attached permit. We appreciate your interest in this matter.

After consideration of your comments, EPD has determined that the permit is protective of water quality standards and we have issued the permit.

If you have any questions, please contact Emily Wingo of my staff at 404-463-4932 or emily.wingo@dnr.ga.gov.

Sincerely,

Jeffrey H Larson, Assistant Branch Chief
Watershed Protection Branch
