

**2.99 Visible Emissions**

2.99.1 Applicability

- (a) The provisions of this section apply to any affected facility subject to Section 1.1 of the general provisions of this text, except as noted in paragraph (b).
- (b) Facilities affected by source categories which contain specific requirements for visible emissions measurements are subject to those requirements and are not subject to the requirements of this section.

2.99.2 Test Methods and Procedures

- (a) In conducting performance or compliance tests as described in Section 1.2, the following test methods and procedures shall be used as reference methods, except as provided in Section 1.2(b). Acceptable alternative methods and procedures are given in paragraph (b) of this section.
  - (1) Method 9 and the procedures of Section 1.3 shall be used to determine opacity.
- (b) Alternate Method 1 - ~~Determination of the Opacity of Emissions from Stationary Sources Remotely by LIDAR~~ may be used as an alternative to Method 9.
