

PROPOSED AMENDMENTS TO THE RULES OF THE
DEPARTMENT OF NATURAL RESOURCES
ENVIRONMENTAL PROTECTION DIVISION
AIR QUALITY CONTROL, CHAPTER 391-3-1

The Rules of the Department of Natural Resources, Chapter 391-3-1, Air Quality Control are hereby amended, added to, repealed in part, revised, as hereinafter explicitly set forth in the attached amendments, additions, partial repeals, and revisions for specific rules, or such subdivisions thereof as may be indicated.

[Note: Underlined text is proposed to be added. Lined-through text is proposed for deletion.]

Rule 391-3-1-.02(2)(q), “Particulate Emissions from Cotton Gins,” is amended to read as follows:

(q) Particulate Emissions from Cotton Gins.

1. The emission of particulate matter from any cotton ginning operation shall not exceed the amounts specified below.

(i) The following equation shall be used to calculate the allowable rates of emission:

$$E = 7 B^{0.5}$$

E = allowable emission rate in pounds per hour

B = number of standard bales per hour--A standard bale is defined as a finished bale weighing 500 pounds.

2. In lieu of demonstrating compliance with the applicable emission standard contained in 391-3-1-.02(2)(q)1.(i) the following control devices may be utilized:

(i) for emission control from low pressure exhausts, the use of screens with a mesh size of 80 by 80 or finer, or the use of perforated condenser drums with holes not exceeding .045 inches in diameter, or the use of a dust house.

(ii) for emission control from high pressure exhausts, the use of high efficiency cyclones.

If compliance with the emission standard specified in 391-3-1-.02(2)(q)1.(i) is required, then the testing methodology to be utilized shall be that specified in the Georgia Department of Natural Resources Procedures for Testing and Monitoring Sources of Air Pollutants.

Authority: O.C.G.A. Section 12-9-1 et seq., as amended.
