Waste Management
1850 Parkway Place, Suite 600
Marietta, Georgia 30067

**SUBJECT: Cherokee County – WM – Pine Bluff MSW Landfill, Inc.
Permit Number 028-039D(SL)
CCR Management Plan - Approval**

Dear Mr. Bassett:

The Georgia Environmental Protection Division (EPD) received your *Request for Minor Modification to Solid Waste Handling Permit* (Minor Modification) to adopt a Coal Combustion Residuals (CCR) Management Plan on April 6, 2017, with final revisions on May 22, 2017. The request is hereby approved.

The approved CCR Management Plan is now part of the facility's Design and Operational Plan, and is therefore made part of the Solid Waste Handling Permit. Operating in compliance with the Permit with respect to CCR management requires strict adherence to the procedures of the approved Plan and requires that CCR received at the facility does not differ from that described in the Plan and is not received in amounts that exceed that given in the Plan.

Under the plan approved today, this facility may receive CCR for one year. An updated CCR Management Plan must be received no later than March 1, 2018 and incorporated into your D&O Plan in no less than one year or you must cease receipt of CCR on May 21, 2018.

EPD is returning approved Design and Operational Plan sheets with this approval letter. One copy of plans will be retained here, and one sent to the Mountain (Cartersville) District office, for EPD's files. If you have any questions regarding this letter, please contact Chad Hall at (404) 362-4893.

Sincerely,

Chad Hall, PhD, PE
Manager

Industrial & Municipal Solid Waste Unit
