Dear Mr. McTeer:

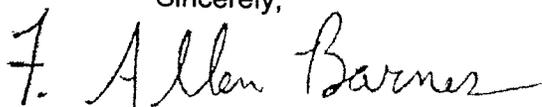

The Georgia Environmental Protection Division (EPD) has reviewed your December 30, 2010 release notification for the above referenced site and has listed this site on the Hazardous Site Inventory pursuant to Section 391-3-19-.05(1) of the Rules for Hazardous Site Response (available at www.gaepd.org).

Enclosed is a document entitled "Introduction to the Hazardous Site Inventory" that explains how sites are listed. Also enclosed is a summary sheet of the information that resulted in this site being listed on the Hazardous Site Inventory.

Although EPD will eventually identify all persons who may be responsible for this site and ask them to investigate and clean it up, you may proceed with those actions at any time. As an alternative to complying with the requirements of the Rules for Hazardous Site Response, you may submit a Voluntary Remediation Program Application and Plan pursuant to the Georgia Voluntary Remediation Program Act (available at <http://www.gaepd.org/Documents/vrp.html>). The Voluntary Remediation Program is designed to encourage the voluntary and timely investigation and remediation of properties where there have been releases of regulated substances into the environment for the purpose of reducing human and environmental exposure to safe levels and to protect current and likely future use of groundwater.

If you have any questions or comments regarding this site, please contact Ms. Jacki Scarbary at 404/657-8600.

Sincerely,

F. Allen Barnes
Director
